

Clearance Certificate

Declaration for safety, health harmlessness and used-oil disposal

The safety and health of our employees, the German decree about dangerous substances, the direction about safety at the workplace and the direction about waste oil disposal require to complete this form, when products, particularly, thermostats, reaction vessels, stirrers, stirrerheads and valves as well as measuring instrument and control elements are sent to us. Without rendering a completed form a reparation or treatment it is not possible.

A completed copy of this form should be sent to us by Email, Fax or letter to inform us before the product arrives. Another copy should be added to the shipment. If necessary the forwarding company has to be informed. Partial information or not to observe the formalities may delay the transaction. Please be appreciative of these procedures.

It is essential to fill this form:

Product description:
Order Number:

Einzelheiten der enthaltenen Substanzen

1) Chemical denomination

a) c)
b) d)

2) Safety measures while handling these substances

a) c)
b) d)
